

COCO-COIR®

PREMIUM ORGANIC POTTING SOIL

The Greatest Earth on Earth™

INTREPID Coco-Coir® Premium Potting Soil utilizes the nutrient rich husk of the Coconut Palm seed. Coco-Coir® and aged compost is naturally fortified with the very highest quality micronized sources of organic nutrients gathered from around the world. Our natural living soil contains a unique blend of special life enhancing and growth promoting beneficial microorganisms. These elements work together to strengthen each plants root system resulting in enhanced water and nutrient absorption and reduced transplant shock. Free from unsightly fillers like pumice and perlite, Coco-Coir® is Certified Organic since 1999 and is still the best potting soil you can buy. **Coco-Coir® Premium Potting Soil** produces healthy root systems, lush deep green foliage, and strong stems with an abundance of beautiful flowers, nutritious vegetables, and flavorful herbs in an organically sustainable system.

- ❖ **Very easy to water – has naturally high water absorption and retention properties**
- ❖ **Contains long lasting, humus rich organic nutrient charge**
- ❖ **Enhances seed germination and cutting propagation**
- ❖ **For all container-grown plants and a soil amendment for all new plantings**

Healthy plants and successful gardening experiences start with your soil or growing media. **INTREPID Coco-Coir® Premium Potting Soil** has been professionally engineered as part of a **holistic** system to optimize the biology of plant-microbe associations. This **sustainable** approach to horticulture enhances soil fertility by maintaining a system that promotes optimal biological activity as a source of health promoting nourishment.

Ingredients: Coco-Coir® (Cocos nucifera mesocarp pith), Aged Conifer Epidermis, Bone Meal, Compost, Feather Meal, Fish Meal, Kelp Meal, Lime, Olivine, Wood Ash, Multiple Strains of Beneficial Soil Microorganisms
